

SAFECode

What's New This Month: February 2021

SAFECode Day

In case you missed it: to show our sincere thanks to all of our members and celebrate our successes in 2020, we'd love to host you and your colleagues for our **first-ever SAFECode Day on February 25!**

We have a lot planned in the agenda, which can be viewed [here](#). In addition, we'll be hosting a special guest, [Tony Sager](#), Senior Vice President and Chief Evangelist, CIS, for a conversation on the role of the public interest nonprofits and the benefits of the partnership between CIS and SAFECode!

This special event is open to all SAFECode Members, so please forward this to your colleagues.

We look forward to changing the world with you!

New Member: Imperva

SAFECode is very pleased to announce that we have a new member!

Imperva protects the data of over 6,200 customers from cyber attacks through all stages of their digital transformation.

Please join us in welcoming Imperva to SAFECode!

Help Us Change the World!

SAFECode Opportunity: Security Trainings

The Security Trainings Working Group is putting together a series of 5-8 minute trainings on several topics. The two currently being worked on are **Threat Modeling and Cryptography**.

What's expected: 2-3 meetings to brainstorm ideas and record content for the topic(s) of your choice. Our Training Working Group leaders and Marketing team will take it from there!

[Learn more about this opportunity](#)

SAFECode Opportunity: Open Source Security Foundation

SAFECode is partnering with the Open Source Security Foundation. We are looking for a group to create a problem statement and a list of topics for interested members to explore.

What's expected: 2-3 meetings to brainstorm ideas, and a willingness to communicate needs to colleagues within member companies.

[Share your interest](#)

The Benefits of Being a SAFECode Volunteer

- Participate in shaping the content of SAFECode publications
- Give back to the community by sharing your knowledge
- Improve the quality of blogs, papers, trainings, and more
- Change the World!

What do I do next? Let us know you'd like to get involved by [signing up here](#). You can also forward this request to colleagues in your company that are experts in any of these areas.

Projects in Flight

DevSecOps

SAFECode's partnership with CSA to create a comprehensive software development and security management lifecycle that leverages components of DevSecOps and Security Champions.

Open Source Security Foundation

SAFECode is a member of the OSSF under the Linux Foundation.

OSSF Working Group

This group will help to shape how SAFECode will continue to contribute to the OSSF's work.

Post Quantum Crypto

This working group is focused on the implications of post-quantum algorithms for developers and offers guidance on preparing for a smooth transition.

SAFECode's Security Trainings

This group identifies existing training that need to be updated and create targeted training to be relevant to the industry and training best practices.

Security Trainings Environment Best Practices

This group seeks to provide insights on what is required to run an effective learning program.

Tying Security to Risk

Many security program managers and leaders are unclear on the business value they provide to their organizations.

"Best Practices"

Now that Worst Practices have come to a close, we're moving to morph the group to BEST practices. More information to follow.

[I want to participate](#)
