

# SAFECode

## What's New This Month: March 2021

### SAFECode Day

In case you missed it we hosted our first SAFECode day on February 25.

We had a great turn out for the event including a special guest, [Tony Sager](#), Senior Vice President and Chief Evangelist, CIS, who spoke on the role of public interest nonprofits and the benefits of the partnership between CIS and SAFECode.

Stay tuned for volunteer opportunities around the topics discussed on SAFECode Day.

### New Blog: Identifying Your Cryptographic Dependencies

SAFECode is very pleased to announce our third blog in our PQC series.

Click [here](#) to read the blog.

## Help Us Change the World!

[Learn more about this opportunity](#)

### SAFECode Opportunity: Open Source Security Foundation

SAFECode is partnering with the [Open Source Security Foundation](#) (OpenSSF)! We want all members to be aware of the benefits of this partnership, along with great opportunities to get involved. We will soon be hosting a Q&A webinar session with members of the OpenSSF leadership team. Come and hear about OpenSSF's vision and current projects. Stay tuned and watch out the announcement email!

[Share your interest](#)

### The Benefits of Being a SAFECode Volunteer

- Participate in shaping the content of SAFECode publications
- Give back to the community by sharing your knowledge
- Improve the quality of blogs, papers, trainings, and more
- Change the World!

**What do I do next?** Let us know you'd like to get involved by [signing up here](#). You can also forward this request to colleagues in your company that are experts in any of these areas.

## Projects in Flight

#### DevSecOps

SAFECode's partnership with CSA to create a comprehensive software development and security management lifecycle that leverages components of DevSecOps and Security Champions.

#### Open Source Security Foundation

SAFECode is a member of the OSSF under the Linux Foundation.

#### OSSF Working Group

This group will help to shape how SAFECode will continue to contribute to the OSSF's work.

#### Post Quantum Crypto

This working group is focused on the implications of post-quantum algorithms for developers and offers guidance on preparing for a smooth transition.

#### SAFECode's Security Trainings

This group identifies existing training that need to be updated and create targeted training to be relevant to the industry and training best practices.

#### Security Trainings Environment Best Practices

This group seeks to provide insights on what is required to run an effective learning program.

#### Tying Security to Risk

Many security program managers and leaders are unclear on the business value they provide to their organizations.

#### "Best Practices"

Now that Worst to a close, we're moving to morph the group to BEST practices. More information to follow.

[I want to participate](#)
